

Specification of Coolant filter Paper roll for CNC Milling machines

1. Purpose/End use of item: For Use in Paper band filter of CNC Milling machines operating with Water Soluble Coolant.
2. Material: Paraprint Viscos
3. Width of the Roll: $400 \pm 5\text{mmmm}$
4. Total length of Filter paper in the roll: 100meter approx.
5. Thickness of Filter paper: $0.2\text{mm} \pm 30\mu\text{m}$
6. Filtration Fineness: 30-50micron
7. Roll bore size: $60 \pm 5\text{mm}$
